Assessment Strategy

Assessment system Overview

Assessment will be carried out by assessment partners with no link to training partners. Based on the results of assessment, B&WSSC will certify the learners. Assessor has to pass assessment of theoretical knowledge of the job role and approved by B&WSSC.

The assessment will have both theory and practical components in 20:80 ratios. While theory assessment is summative and a written exam; practical will involve demonstrations of applications and presentations of procedures and other components. Practical assessment will also be summative in nature.

Testing Environment

Training partner has to share the batch start date and end date, number of trainees and the job role.

Assessment will be fixed for a day after the end date of training. It could be next day or later. Assessment will be conducted at the training venue.

Room where assessment is conducted will be set with proper seating arrangements with enough space to prevent copying.

Question bank of theory and practical will be prepared by assessment agency and approved B&WSSC. From this set of questions, assessment agency will prepare the question paper. Theory testing will include multiple choice questions, pictorial question, etc. which will test the trainee on his theoretical knowledge of the subject.

The theory and practical assessments will be carried out on same day. The question paper is pre-loaded in the computer (incase of online assessment) and it will be in the language requested by the training partner.

Presentation will be one mode of assessment and so computers and LDC projector will be available for assessment. Viva will also be used to gauge trainee's confidence and correct knowledge in handling job situations.

Assessment Quality Assurance framework

Assessor has to go through orientation program organized by Assessment Agency. The training would give an overview to the assessors on the overall framework of QP evaluation. Assessor shall be given a NOS and PC level overview of each QP as applicable. Overall structure of assessment and objectivity of the marking scheme will be explained to them.

The giving of marks will be driven by an objective framework which will maintain standardization of marking scheme.

In case of many candidates to be accommodated in one venue for theory assessment, caution is taken not to let the candidates who competed test meet those who have not. Once the first batch has moved out of the knowledge based assessment area, the second batch must be taken from the main waiting area and seated in the respective seats for their knowledge based assessment.

For practical, the instructions for taking the test are clearly written on the board in the lab or shared with the candidates verbally.

The assessment will be video recorded and submitted to B&WSSC. The training partner will intimate the time of arrival of the assessor and time of leaving the venue.

Methods of Validation

Unless the trainee is registered, the person cannot undergo assessment. To further ensure that the person registered is the person appearing for assessment, id verification will be carried out. Aadhar card number is part of registering the candidate for training. This will form the basis of further verification during the assessment.

Assessor conducts the assessment in accordance with the assessment guidelines and question bank as per the job role.

The assessor carries tablet with the loaded questions. This tablet is geotagged and so it is monitored to check their arrival and completion of assessment.

Video of the practical session is prepared and submitted to B&WSSC.

Random spot checks/audit is conducted by B&WSSC assigned persons to check the quality of assessment.

Assessment agency will be responsible to put details in SIP.

B&WSSC will also validate the data and result received from the assessment agency.

Method of assessment documentation and access

The assessment agency will upload the result of assessment in the portal. The data will not be accessible for change by the assessment agency after the upload. The assessment data will be validated by B&WSSC assessment team. After upload, only B&WSSC can access this data. B&WSSC approves the results within a week and uploads on SIP.

Glossary

| Term | Description |
|------------------------------|---|
| Declarative Knowledge | Declarative knowledge refers to facts, concepts and principles that need to be known and/or understood in order to accomplish a task or to solve a problem. |
| Key Learning Outcome | Key learning outcome is the statement of what a learner needs to know, understand and be able to do in order to achieve the terminal outcomes. A set of key learning outcomes will make up the training outcomes. Training outcome is specified in terms of knowledge, understanding (theory) and skills (practical application). |
| OJT (M) | On-the-job training (Mandatory); trainees are mandated to complete specified hours of training on site |
| OJT (R) | On-the-job training (Recommended); trainees are recommended the specified hours of training on site |
| Procedural Knowledge | Procedural knowledge addresses how to do something, or how to perform a task. It is the ability to work, or produce a tangible work output by applying cognitive, affective or psychomotor skills. |
| Training Outcome | Training outcome is a statement of what a learner will know, understand and be able to do upon the completion of the training . |
| Terminal Outcome | Terminal outcome is a statement of what a learner will know, understand and be able to do upon the completion of a module . A set of terminal outcomes help to achieve the training outcome. |
